Kristine,

The following email is provided on behalf of Carl.

Kristine – This is to confirm that Tables 1-31 contain actual data and Table 32 contains dummy data. Please let us know if you have any further questions. Thanks.

Carl

Subject: Portland Harbor LWG FS Cost Backup

Jim and Bob -

CDM Smith's cost estimators have requested confirmation from the LWG that the cost data presented in Tables 1-31 of LWG's October 10, 2013 "Response to EPA Cost Comments" contain real data and not dummy data (see attached). Table 32 appears to contain dummy data and the rest of the tables appear to contain real data but the document states,

"In order to streamline efforts and provide useful data to EPA, this submittal includes a draft template of the EPA-requested data tables. These draft tables currently include 'dummy' data that, after EPA approval of the table format, will be populated with actual cost data and submitted to the EPA within 45 days of EPA approval. "

Please confirm that Tables 1-31 contain real data before using this information in the cost estimate templates being prepared for the FS.

Thanks,

Kristine Koch
